Kenneth W. Kiser MD  
Institute for Population Health Improvement UC Davis Medical Center

Dear Dr. Kiser,

My name is Larry Ladd and I am a volunteer health monitor (I am a geographer by training) for the US EPA sponsored Community Advisory Group for Aerojet Superfund Site Issues. On July 10 of this year a community workshop on the cleanup of Aerojet's Area 40 will be held at the Folsom Community Center, 52 Natoma St., Folsom CA 95630. As perchlorate cleanups and the resulting aerosols will part of the discussion, I was hoping you or one of your associates could be present at the workshop as during public comment I will be giving psssing mention of your study of the 1988-1990 measles outbreak after the Pepcon ammonium perchlorate explosion on May 4, 1988  
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC1022280/?page=4&fbclid=IwAR0eow6z874znEUvvFxyzk77SHNQsfH2ohWP Fubbj6cVLAREcN4JFAQctM6w> as a rationale for being vigilant on the former Aerojet site for children who contract measles before their scheduled inoculation at 12 months.

Thanks,

Larry Ladd
